PROFILE

Full-Stack Software Engineer and Magna Cum Laude IT Graduate with ~3.5 years of experience building and deploying end-to-end web applications in Laravel (PHP), ASP.NET (C#), JavaScript, and SQL (MySQL/SQL Server). Proven solo developer skilled in full-lifecycle engineering, Linux server deployment (Proxmox/Nginx), and enterprise MS Entra ID / Office 365 administration. Fluent in English with prior global experience supporting North American and Australian clients. Seeking a 100% remote Full-Stack Developer role.

EDUCATION

- 2018 - 2022

Bachelor of Science in Information Technology

- Graduated Magna Cum Laude at City of Malabon University
- Core Coursework: Database Management (MySQL), Data Structures & Object-Oriented Programming (C, C++, C#), Web Development (HTML, CSS, JavaScript), Computer Networking, Cybersecurity, & 3D Modeling/Unity

WORK EXPERIENCE

- 2026 - 2026

Computer Programmer III (COS) DA - Bureau of Soil and Water Management

- Architected and delivered two mission-critical web applications from scratch using the ASP.NET framework.
- Handled full-stack development independently, translating user requirements into scalable solutions.
- Managed code version control via Git and coordinated deployment workflows with leadership.

- 2023 - 2026

System Programmer Manila Central University

- Developed and deployed full-stack web and mobile apps solo using Laravel, WordPress, and Dart/Flutter.
- Administered Microsoft Entra ID, Office 365, and ERP, resolving tickets via MS Teams collaboration.
- Automated student account provisioning and data management during peak enrollments using PowerShell.
- Participated in ManCom/ExeCom meetings to gather software requirements and present system updates.
- Managed Git version control and coordinated in-house server deployments under a hybrid work model.

- 2022 - 2023

Service Desk Analyst Atos Information Technology Inc.

- Provided level 1 remote support for NA and AU enterprise clients, resolving software and hardware issues.
- Completed rigorous communication training focused on cross-cultural relations and irate user de-escalation.
- Managed high-priority ticketing workflows under strict SLAs to ensure rapid diagnosis and resolution.
